

A Reputation For Excellence

Custom Stainless Works was established in 1993, and over the years has earned a reputation for unparalleled excellence in stainless steel fabrication. Whether you require a large quantity of identical parts, or need to design a unique item for a one-of-a-kind application, the team at Custom Stainless Works is ready to help.

Stainless Steel Solutions

- Custom Fabrication
- Mass Production
- Laser Cutting
- Specialty Welding
- N/C Punching/Forming

Our Specialty Is The Design, Supply And Fabrication Of Custom Stainless Steel

Custom Stainless Works utilizes modern equipment and an experienced workforce to help bring your ideas to life. In the past, we have built tanks, BBQs, tables, countertops, corner and sneeze guards, tollbooths, commercial kitchens, railings and even movie sets. The potential is limited only by your imagination.

Unparalleled precision, time after time: We are experienced in the mass-production of stainless steel component parts for your products. Our team can work from your existing blueprints, or work with you to design a solution for your unique needs. We build to your specifications, and exceed your expectations.

Equipment and Materials: Our 13500 sq. foot facility houses a wide variety of state-of-the-art equipment including: Amada Laser, Amada Turret, HACO Press & Shear as well as Tig and MIG Welders. Although stainless steel is our specialty, we can create virtually anything in Mild Steel or Aluminum.

An Experienced Team: Even with the most modern machinery and finest materials, it is still the people who really make things happen. Our team has over 200 years combined experience in the design, manufacture and supply of custom stainless steel and we pride ourselves on fine workmanship and customer service.

Custom Stainless Works offers a wide variety of metal fabrication services for your one-of-a-kind projects or mass-production parts.

One-Of-A-Kind Custom Stainless Steel Solutions: As our name implies, we specialize in the design, supply and manufacture of custom stainless steel. If you have a complete design, we will be pleased to build to your specifications. If your concept is not yet designed, contact us to put our team to work to manufacture the item you envision.
